**FOR IMMEDIATE RELEASE**

## **FTXwest Digital Entertainment Expo November 15<sup>th</sup> - 18<sup>th</sup>, 2007**

### **2nd Annual FTXwest Expo Coming This Fall**

The FTXwest Digital Entertainment Exhibition and Conference is returning to the Vancouver Convention & Exhibition Centre this November, with over 55 exhibitors, 50 panels, workshops and technical sessions, and an estimated 2500 attendees. The latest technologies in the film, television and new media industries will be showcased over this four day event, with some of the top names in the industry demonstrating their products and offering instruction for both emerging and established participants.

Ideally situated in one of the largest production capitals in the world, FTXwest offers equipment and software manufacturers the chance to demonstrate their products to a targeted audience of industry professionals, including producers, directors, editors, sound designers, animators and visual effects artists. A two day exhibition and four day conference make FTXwest the largest event of its kind in Canada, recognized as a must-attend event for all those in the industry. 2006 attendees included visitors from as far away as Newfoundland, Toronto and Los Angeles.

Conference tracks include a Production Series, Finance Series and Screenwriting Series, comprised of professionals from throughout the industry. Each series has been designed to suit the delegate's needs, by allowing them to choose from individual sessions, or purchase a Series Pass at a discounted rate.
